

iD Inspiration Ultimate

Hybrid Luxury Vinyl Tiles

 **Tarkett**

Floors that contribute to the quality of life.

Quieter than wood, ceramic tiles and stone. Sound good?

Traditional hard flooring can be very noisy. In contrast, Tarkett's iD Inspiration Ultimate Hybrid LVT Tiles and Planks are designed to deliver superior impact sound resistance. Featuring a built-in acoustic foam backing which reduces noise between floors by an impressive 19dB, it also helps to dampen in-room noise.

Water-proof, stain-proof, dent-proof, life-proof

Tarkett's iD Inspiration Ultimate Hybrid LVT provides extraordinary resistance to everyday wear and tear. Unlike timber flooring, it is resistant to indentations made by stilettos, while Tarkett's surface treatment protects it from food, wine and other stains. This also makes your new floor easy to clean without the need for any harsh chemicals.

Handle the heat, the cold and the light

Extremes of heat and cold won't affect the appearance or dimensions of your new LVT floor. Tarkett's iD Inspiration Ultimate Hybrid LVT are designed to withstand the conditions inherent to the harsh Australian climate.

Everyone should feel good inside

Tarkett's Hybrid LVT helps improve the quality of life by minimising the places where dust and other allergens can build up. Every plank is made using a process that avoids harmful compounds and results in air quality 10x better than Europe's highest standards. That's good for everyone, young and old.

A new generation of Hybrid LVT in 5 layers.

iD Inspiration Ultimate LVT Tiles and Planks feature Tarkett's patented extra-dense Rigid Composite Core as part of their 5-layer construction. This gives them the feel of solid wood underfoot. The perception of quality is further amplified by Tarkett's Tru-Grain™ Technology, which mimics the natural grain of timber.

1

The hard-wearing **Ultimate PUR** (Polyurethane reinforced) top layer is exceptionally resistant to abrasion and scratches.

2

It's our high definition printed layer which **Tru-Grain™** reproduces the lifelike look of natural wood.

3

The patented **Rigid Composite Core** provides durability and the underfoot feel of solid wood.

4

Acoustic backing with **Soundblock™ Technology** reduces noise transmission by a noticeable 19 dB.

5

Installation is fast and easy thanks to the **14F Click Technology**®. Simply drop, lock and click into place.

TARKETT | iD INSPIRATION ULTIMATE

Redo your floors in a day or two

iD Inspiration Ultimate Hybrid LVT Tiles and Planks have a soft foam base layer, so they can be installed directly over ceramic or porcelain tiles, timber and concrete with little or no surface preparation* and no underlay required. The one-click, triple-lock connection system is so efficient one person can install up to 100m² a day, with no glue required. And no gluing means no waiting, so life with your new floors can start right away.

Foam backing on each iD Inspiration Ultimate LVT Tile and Plank helps cover sub-floor imperfections. This means they can be laid directly onto your existing floor in most cases.

iD Inspiration Ultimate Hybrid LVT. Luxury you can see, feel and hear.

A layered approach to sound reduction

iD Inspiration Ultimate Hybrid LVT Tiles and Planks have a built-in acoustic backing layer that features Tarkett's Soundblock Technology. This dampens in-room noises like steps and scrapes, making it quieter than timber, tiles, concrete or any other hard flooring surface.

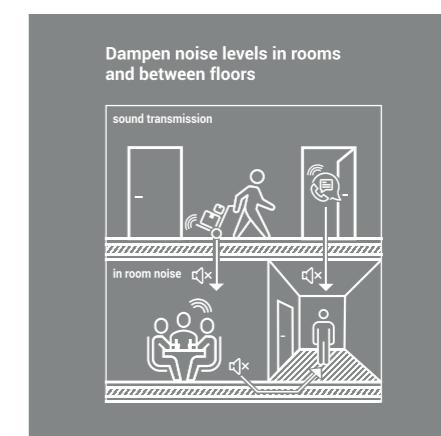

The same process also dampens noise transmission between levels in a building.

The perfect solution to reduce noise

Designed to deliver superior impact sound resistance, iD Inspiration Ultimate LVT Tiles and Planks feature a built-in acoustic foam backing making them the ideal flooring solution for multi-residential & residential applications.

Tested and proven to perform

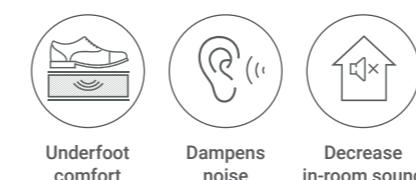

When tested on a 270mm concrete with 2 x 13mm plasterboard and 75mm glasswool R2, this product has achieved LnTw 40dB, resulting in a 6 star rating by AAAC measured in accordance with AS/ANZ ISO 717.22004.

iD Inspiration Ultimate acoustic systems

| Slab thickness mm | L _{ntw} (dB) | | |
|-------------------|---|---|---|
| | Bare concrete, No Plasterboard, No Insulation | 1 x 13mm Plasterboard, 35mm Glasswool Insulation R1.1 | 2 x 13mm Plasterboard, 75mm Glasswool insulation R2 |
| 120 | 58 | 53 | 45 |
| 150 | 57 | 52 | 44 |
| 180 | 55 | 50 | 42 |
| 200 | 54 | 50 | 41 |
| 270 | 53 | 49 | 40 |

The unique structure of iD Inspiration Ultimate Hybrid LVT reduces in-room walking noise by the greatest amount of any hard floor solution.

Flooring Accessories

Tarkett offers a wide range of matching accessories to complete your installation. Combining a legacy of expertise with a passion for low maintenance, Tarkett accessories are designed to last. They absorb floors shocks and abrasions and keep walls in good condition to increase your installation and maintenance savings.

Square Flush Stair Nosing

A premium accessory designed to add the finishing touch to your staircase, ensuring safety and elegance.

Safety and Transition: Create seamless transition from your flooring to the steps, enhancing safety and minimising the risk of tripping.

Aesthetics: Crafted to match your flooring's design, the Square Flush Stair Nose adds a touch of sophistication to your staircase, elevating the overall aesthetics.

Durability: Built with high-quality materials, this accessory is designed to withstand foot traffic and provide long-lasting performance.

Installation is straightforward, with permanent construction adhesive and mechanical fastening where necessary. Suitable for both tread and riser applications.

T-Moulding with Clips

An essential accessory that adds both style and practicality to your installation.

Seamless Transition: Facilitates a smooth transition between two flooring surfaces of equal height, ensuring a cohesive and polished appearance.

Protection: Covers expansion gaps at doorways or between rooms, safeguarding your flooring against potential damage and accumulation of debris.

Aesthetic Enhancement: Designed to coordinate with your new floor and enhance the overall look and feel of your home.

Our T-Moulding accessories are engineered for easy installation and durability.

Scotia

A versatile accessory designed to enhance the aesthetics and functionality of your flooring.

Transition and Aesthetics: Provides a smooth and visually pleasing transition between the base of the wall and flooring. It neatly covers the expansion gap left during installation, offering a finished and polished look.

Protection: By concealing the joint between the wall and the floor, the Scotia safeguards your flooring from potential damage due to impact or moisture.

Crafted with precision, our Scotia accessories are customised to match the design of your new floor. The design ensures an easy installation process and a secure fit.

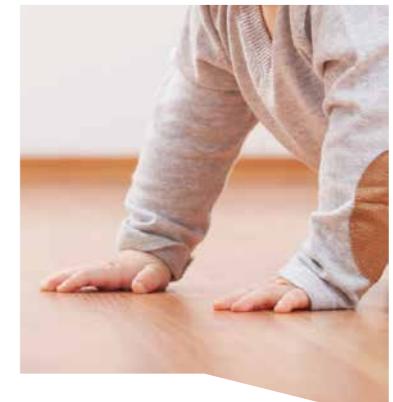

TERRAZZO
280039018

Tarkett flooring is designed to contribute to quality of life and well-being by creating acoustically comfortable, high-quality interior environments.

Tarkett believes in creating a positive future for everyone, based on understanding the big environmental and societal challenges, to develop innovations and approaches that help solve them. Tarkett has a long commitment to taking an environmentally responsible and sustainable approach to manufacturing and product development. Tarkett products are designed in accordance with Cradle-to-Cradle® principles to minimise resource use and waste, from the choice of raw materials through to the recycling and reuse of products. When you invest in flooring from Tarkett, you are living the good, good life.

Doing good. Together.

Tarkett's flooring is designed for the good life, and that includes indoor air quality and acoustics. iD Inspiration Ultimate Hybrid LVT collection features:

Low VOC
indoor air quality

Acoustic
performance 19dB

Phthalate free

Underfoot comfort
