DESSO & PATRICIA URQUIOLA

CARPET TILES

DESSO & **PATRICIA URQUIOLA**

Step into a world of high-tech graphic softness with the first DESSO & Patricia Urquiola collaboration. A carpet that redefines comfort, sophistication, and sustainability. Richly textured and imaginative, the designs combine the tactile quality of textiles with the visual appeal of graphic patterns.

Yarn and backing are 100% recyclable, with an impressively low circular carbon footprint, this new collection is available in twelve distinctive colours.

Urquiola is committed to exploring the possibilities of –and connections between– craftsmanship, artisanal production and new technologies. Continually researching the use of raw materials and experimenting with processes: Urquiola knows designers can contribute to a better future for both the people and the planet.

She believes that sustainability lies in innovation. The results of this dedicated ethos are imaginative, high-end designs with staying power.

PATRICIA URQUIOLA

In contemporary design and architecture, Milan-based Patricia Urquiola needs no introduction. Light-hearted and poetic yet detail-focused and pragmatic, her approach to materiality and design processes is innovative and playfully adventurous.

TACTILE TEXTILE: **A GRAND GESTURE**

Taking inspiration from woven textiles, Patricia Urquiola infused this new collection with the expressive details and invitingly soft qualities of knitwear and woollens. Wanting to depart from the organic lines so abundant in interior design nowadays, Urquiola took further cues from textiles like tweed and bouclé and opted for a decidedly graphic pattern.

Through masterful handling of colours in a gridlike formation, Urquiola has successfully provided the floor tiles with a sense of depth. This striking visual effect gives the floor a soft and textured look—a three-dimensional appearance sure to elevate any space.

The collection comprises twelve different colours, forming a spectrum of neutrals, toned-down shades and accents to choose from. The colours in the collection allow for various mixing and matching and can be installed to create different effects, suiting the diverse spatial needs.

COLLABORATION IN CREATION

A successful collaboration between a designer and manufacturer needs only one thing: the two parties genuinely sharing knowledge, experience, curiosity, and the determination to create a beautiful and unexpected collection. For Urquiola, dialogue and an open exchange of ideas were fundamental in her collaboration with Tarkett.

Exploring, researching and experimenting side by side: Patricia Urquiola and the designers from Tarkett worked together closely to make this technologically advanced collection a reality.

SHARED RESPONSIBILITY

Tarkett and Urquiola shared a common vision right from the start: to create a carpet tile collection with the lowest possible environmental impact.

At Tarkett, we recognize that we are responsible for the full life cycle of every material we work with. The result: a collection that combines technical expertise with tactility and textural beauty. For new, and renewed, beginnings.

THE BEAUTY OF **CIRCULARITY**

At Tarkett, our approach to circularity focuses on three key areas: design, materials and circular journey. For us, the beauty of circularity is about the beauty of the reused materials that go into our products, the innovative manufacturing processes we implement, and the knowledge that we're actively cutting down on waste and greenhouse gas emissions.

THE EVOLUTION OF ECOBASE®

Over a decade ago we made a commitment to place circularity at the core of our ambitions as a company. Our carpet tiles are composed of two key components – yarn and EcoBase backing – that come together just as neatly as they can later be taken apart. As part of our continuous efforts to reduce our carbon footprint we are proud to launch a new and improved EcoBase backing, which sees a new bio-based ingredient replace a core ingredient formerly composed of petroleum-based content.

OUR CIRCULAR CARBON FOOTPRINT

To keep track of the carbon generated and saved over a product's life cycle, we calculate and externally verify the Circular Carbon Footprint of every one of our carpet tile collections.

Together with our holistic design approach and carefully considered materials, our closed-loop system ensures that our carpet tiles record an impressively low circular carbon footprint – one we're continually working, alongside our partners and customers, to shrink even further.

Circular Carbon Footprint: according to the Environmental Product Declaration (EPD) S-P-08561 DESSO & Patricia Urquiola externally verified by Bureau Veritas, based on the total carbon footprint (Modules A-D) with a closed loop circular recycling scenario.

TECHNICAL SPECIFICATION

Preliminary specification according to EN 1307

Type of manufacture	ISO 2424	Tufted 1/10" Structured loop pile	
Pile Fibre	ISO 2424	Solution dyed BCF Polyamide 6 ECONYL®*	
Dimensions	EN ISO 24342	50 x 50 cm / 19,68" x 19,68" (20 tiles per box)	
Primary backing	ISO 2424	Polyester fleece	
Secondary backing	ISO 2424	DESSO EcoBase®**	
Total thickness	ISO 1765	6.5 mm	0.3 inch
Effective pile thickness	ISO 1766	3.5 mm	0.14 inch
Total mass	ISO 8543	4050 g/m²	119.5 oz/yd²
Total pile mass	ISO 2424	700 g/m²	20.7 oz/yd²
Effective pile mass	ISO 8543	515 g/m²	15.2 oz/yd²
Pile density	ISO 8543	0.143 g/cm³	0.0052 lb/in³
Number of tuft	ISO 1763	1580 /dm²	132104 /yd²
Stroll test	ISO 6356	≤ 2.0 kV	
Classification for use	EN 1307	33 Commercial - heavy use	
Vertical resistance	ISO 10965	≤ 1 x 10 ⁹ Ohm	
Dimensional stability	EN 986	≤ 0.2 %	
Impact sound reduction ΔL _w	ISO 10140	23 dB	
Noise reduction	ISO 354	0.15 α _w	
Flammability	EN 13501-1	B _{fl} - s1 (loose laid tested)	

Preliminary specification

Tarkett carpet products are to be installed in full accordance with the DESSO installation instructions and recognised trade standards. An effective, regular cleaning and maintenance programme is vital for retaining a high appearance level. Tarkett carpet products should only be used as floorcoverings. Note: Tarkett reserves the right to amend this specification without giving prior notice. For the latest versions of the technical specifications, check our internet site: www.desso.com

Tarkett Human-Conscious Design®

Tarkett Human-Conscious Design® is our pledge to stand with present and future generations. To create flooring and sports surfaces that are good for people and for the planet. And to do it every day.

We deliver on this through the synergy of three commitments:

- 1 Deep human understanding
- 2 Conscious choices. For people and planet
- 3 With you. Every step of the way

About Tarkett

With a history of more than 140 years, Tarkett is a worldwide leader in innovative and sustainable flooring and sports surface solutions, generating turnover of € 3.4 billion in 2023. The Group has close to 12,000 employees, 23 R&D centers, 8 recycling centers and 34 production sites. Tarkett creates and manufactures solutions for hospitals, schools, housing, hotels, offices, stores and sports fields, serving customers in over 100 countries. To build “The Way to Better Floors,” the Group is committed to circular economy and sustainability, in line with its Tarkett Human-Conscious Design® approach. Tarkett is listed on the Euronext regulated market (compartment B, ISIN: FR0004188670, ticker: TKTT)
